

Glossary for Module 2: Building an Actionable Career Plan

The glossary provides a list of terms and definitions used throughout this course.

Career - A series of connected employment opportunities (jobs) that provide both experience and learning.

Career Objective - Short-term goals to achieve your long-term career goal.

Career Goal - A short, descriptive statement about the big picture of your career aspirations.

Informational Interview - A conversation you have with someone to learn about their professional experience, while exploring your own career options (as defined by InterSECT Job Simulations).

Job - An employment opportunity to simply earn money and less impact on your future work.
